# Home Owner Testimonials

A couple of weeks ago we had our front lawn transformed by Jason Dyer and his crew of We Sod It Landscaping. The sod supplied was lush and green, the job was done in a day. We could not be happier!! From the get go, Jason proved to be honest and reliable, time tables were kept, the work was done on time, in a professional manner, and as agreed upon, no surprises! We would not hesitate to recommend Jason, and We Sod It Landscaping, they did an exceptional job!!

We SOD It was recommended to us by not one but TWO close friends of ours... and Jason (and his team) went above and beyond and did not disappoint!

Quick to reply, easy to communicate with, punctual, professional, and best of all... worked with our budget to make our yard how we wanted it! VERY COMPETITIVE RATES! Project is in progress but we are already VERY impressed with the customer service provided by We SOD It Landscaping! HIGHLY RECOMMEND and can't wait to start enjoying our freshly sodded yard very very soon :)

"We commissioned Jason at We Sod It to provide top soil and sod at our new home. His team was on time and completed the work quickly and professionally. The quality of the work was outstanding and his pricing was competitive so we used Jason and the We Sod It team again to complete our remaining landscaping projects. He was responsive and thorough in helping us determine a design that met our desired look and that was within our budget. Again, the team was on time, used high quality products and the end result is exactly what we wanted. As a fully satisfied customer, I can highly recommend Jason and his team for your landscaping needs"

***-Clayton in Cranston***

"Had We Sod it Landscaping come out and gave us a great quote, did the work with in a week. Professional work yard looks great, will use them again , Thanks Jason and his crew."

***- Steve T***

"Jason and his team at We Sod It and Jason Dyer are very knowledgeable and professional. This team did a fabulous job grading our front yard, creating a small flower garden utilizing our existing stone material and laying the sod. It was a pleasant experience dealing with them from the beginning to the end. They offered great tips and all were super pleasant to deal with. We would definitely recommend We Sod It to anyone who needs landscaping work done. We will certainly be calling Jason again for any other landscaping jobs!"

"My wife and I were very eager to get sod installed in the backyard of our new home as soon as we could this spring after the snow melted. It wasn't until we had already received 5 quotes from other landscaping companies in the early spring that we were referred to Jason at We Sod It Landscaping by a friend who had nothing but great things to say about Jason and his company. One of the 5 original quotes we had already received stood out from the rest, and I was sure it would have Jason's quote beat as well. I was wrong! I was very pleasantly surprised by not just the price that I was quoted, but also by Jason's prompt & professional communication, and by the 100% guarantee that he gives on his sod & workmanship. It was a no brainer decision for us to go with Jason and the guys at We Sod It for our backyard after talking with him, and receiving our more than reasonable quote so quickly.

Just as the ground dried up from the spring thaw, and the install date was around the corner, it ended up raining cats and dogs for a few days. Even with the soggy yard, Jason and his guys came up to Airdrie willing to try and make it work as he knew we were so eager to get the yard done. Once they arrived, Jason decided that it would be best to let the yard dry up over the weekend to ensure a quality installation, and assured me they'd be back first thing Monday morning to get the yard complete. He was true to his word, and he was back in Airdrie with extra guys first thing Monday morning to level and remove some of the yard's existing dirt, and put down the loam & sod. They not only installed the perfectly level/smooth sod in the entire backyard by just after lunchtime, but they also cleaned up their entire mess in the front & back yards before they left.

It is now 3 weeks after the sod was installed, and the backyard looks incredible! The grass is already very thick and green, and now has me glaring at the sod the home builder has installed in our front yard last summer. I definitely won't hesitate to refer others to Jason and his team at We Sod It, as I know I won't be calling anyone else for any future landscaping needs I might have!

Thanks again Jason & Team for your professionalism, hard work, and attention to detail! We look forward to having you back in the future for our other landscaping needs!

***Southwinds, Airdrie "***

In August 2015, my husband and I had a two week time frame in which we planned to install an irrigation system and lay sod in our new yard. Thanks to the lack of cooperation from the weather we got too far behind schedule to complete the project. As soon as we realized we needed help I called three landscaping companies for a quote to supply and install the sod. Jason from We Sod It returned my call that evening and set up a time to measure... our yard on his day off. One of the other companies called three days later and I still haven't heard from the third.

As soon as we met Jason we decided he was the person we wanted. He is very personable and very professional. After measuring the yard, he promised he would have a quote to us later that day – and he did (and it was more affordable than we were expecting).

We were scheduled to be away for a month shortly after receiving the quote. In order to have the job completed, it meant we had to trust Jason and his crew to level and prepare the ground then install the sod while we were away. Jason promised he would do an excellent job as he always treats his customers' yards as his own. He also ensured he would fix anything we were not happy with.

We could not have been happier with the final outcome! He met all of our expectations and delivered on his promise. It was wonderful to come home to our awesome new lawn. We would not have been able to do as good of a job ourselves. Jason even sent us pictures at each stage of the process.

I would not hesitate to recommend We Sod It for any landscape needs. Jason was a pleasure to deal with and fulfilled all of our expectations. We're looking forward to having some trees installed in the spring and Jason will be the only phone call I make.

Sincerely,

***-Marilyn Klotz***

It is my pleasure to be one of We Sod It's clients. We were very lucky to have found them online, and they were one of three quotes for our 1000 square feet of lawn needed. They were knowledgeable, eager, and glad to give us information for handling our back lawn. We wanted to ensure that we had a firm layer of top soil, and had several issues in grading that we were concerned about around our deck steps. They assured us that wouldn't be an i...ssue. In less than a day, they laid our sod, ensured it was watered, and left us with a 100% guarantee. The quality of the sod was and is excellent, as was their work effort. They cleaned up their mess, and made sure our lawn was professional looking, and complete. I would highly recommend them as your lawn, and landscaping specialists. I know we will be phoning them next year to help us with trees, and garden beds.

Fantastic Job Guys!

Jason Dyer and his company We Sod It were responsible for the soft landscaping at our newly built home. WeSod it is a terrific company to work with; we were impressed with their attention to all aspects of our fall landscaping project. Jason and his crew were conscientious, on time and responsive to the many adjustments made to our landscaping project. Due to timing of receipt of our grading certificate our landscaping could not start until late September. Jason and his team went above and beyond to accelerate various aspects of the project to ensure the sod was installed in timely manner to ensure it had sufficient time to take prior to winter.

I would not hesitate to recommend We Sod It for your landscaping needs.

To Whom It May Concern,

I contacted We Sod It after having considerable issues with previous work done in my front yard. I sent an email as requested on their website and got a response from Jason in a very timely manner. He arranged a time to come to the house and take a look in order to be able to provide me with an accurate quote for the service. He arrived when he said he would (which was a pleasant surprise) and we discussed what I wanted to be done. After he took some measurements, etc. he advised me that he would email an actual quote by the next morning. I received the quote within the time frame he promised; I was happy with the quote provided; contacted Jason again and we agreed on a day they would start the project. That day came and due to circumstances beyond Jason's control (2013 Flood) he contacted me prior to when he said they would arrive to advise that they weren't going to be able to start as promised that day. Given the circumstances, I totally understood and was very impressed with the promptness of Jason's call, his apologies and his willingness to reschedule for the very next day.

Jason and his crew arrived at exactly the time he said they would along with all the necessary equipment and manpower to do the job. The crew worked extremely hard and very efficiently, in extremely warm weather. There was no slacking and I was very happy with how quickly they finished the project and the attention that was paid to small details. The yard looked exactly as I wanted it.

In summary, I can't say enough with how impressed I was with the professionalism and courteousness of this company and its employees. It was very evident that they took pride in their work and strived to ensure complete satisfaction to its customers. The whole experience was extremely pleasant from start to finish and I wouldn't hesitate in contacting We Sod It for any landscaping needs I may have in the future. In fact, I wouldn't call anyone else!

***Pamela Hildebrand***

Dear Sir or Madam,

We are pleased to recommend We Sod It Landscaping Ltd. Not only did Jason Dyer and Terry Dyer do an upstanding job of trimming our two lengthy residential hedges and cleaning up immaculately after themselves, but they knew when to do it. Last year, Terry came over to inspect the overgrown and well-aged thick bushes, but knew that cutting them back in Spring, before new growth, was healthier for the plants than lopping them off in the fall. Now those hedges are better looking and more manageable than ever.

We also appreciated the way they pruned the beautiful lilac tree with all of its foundation shoots. And the tree appreciates it too, showing well with larger and additional fragrant blossoms.

We noticed We Sod It was reasonably priced, as we compared rates with other landscapers. Thank you so much Jason and Terry for a job well done.

To whom it concerns:

When the snow melted in our yard this year, we realized an overhaul of the lawn could not be postponed any longer. After reviewing a number of estimates, we selected WSI to do the work. Within two weeks, our family was enjoying a healthy, beautiful lawn. Jason and his crew's professionalism and responsiveness were genuine and consistent from the beginning of the project through to completion. The staff were friendly and courteous, but most importantly, the work was delivered exactly as promised; on-time, on-budget and to our 100% satisfaction. My only regret is that we didn't do this years ago. Thanks WSI!

To Whom It May Concern:

We would definitely recommend We Sod It Landscaping Ltd. We had previously called several landscaping companies to get a quote for sods for our house but some of which were over priced, not professional, not knowledgeable, and unwilling to go out for free estimates. We called We Sod It and Jason Dyer came within 2 days for a free estimates. He is very knowledgeable and professional. He got us a quote within couple of days and got us booked in for sod in a week time.

Jason and his team did a fabulous job laying grass on our yard. We love it. It was a pleasant experience dealing with them from the beginning to the end. We would definitely recommend We Sod It to anyone who needs landscaping work done. As well, we will surely call Jason should we require more landscaping services on our house in the future.

Thank you Jason and your team for the job well done. We love coming home seeing our beautiful grass.

Sincerely,

***Phuong Tran/Kim F***
